

To
All the Municipal Commissioners,
MA & UD Department,
Andhra Pradesh.

File No: 77(6)/SAC/COO(S)2016, Dt: 16.05.2018.

Sir / Madam,

Sub: SAC- Specification for litter bins and waste storage to address issues of spillage and littering in cities-Reg.

Ref: Lr.No.D.O.15/29/2018-SBM-I, dt: 14.05.2018, of Joint Secretary & Mission Director, SBM, MoHUA.

@@@@@@

Attention is invited to the subject and reference cited.

Vide reference cited, the Joint Secretary & Mission Director of SBM has informed that the Swachh Bharat Mission (Urban) places strong focus on clean public areas, which is also a critical factor towards creating the citizen perception of a city's cleanliness levels. It has been observed that inadequate size of litter bins/ waste storage bins placed in public places leads to the overflowing causing littering in public, which not only creates a nuisance for citizens but also leads to menace by animals.

On this issue, reference is drawn to the protocol for Star Rating of Garbage Free Cities, issued by the Ministry of Housing and Urban Affairs, which provides specifications for litter bins and waste storage bins provided below for your reference.

i. Litter Bins: Litter bins ranging in capacity 60- 100 ltr twin bins placed along roadside to cater to the needs of the public for throwing garbage along roadside including commercial, public, non-commercial and residential areas.

ii. Waste Storage: Waste storage bins ranging in capacity of 1.1 — 4.5 cubic meters placed at strategic locations along roads/in public/commercial/residential areas to receive waste collected from houses/commercial.

Therefore, all the ULBs are requested that litter bins and waste storage bins placed across the city should be of the size which can accommodate waste disposed in it for an entire day along with regular schedules for emptying/cleaning of litter bins and waste storage by ULBs or contracted agencies.

Yours faithfully,
D MURALIDHAR REDDY, IAS
MANAGING DIRECTOR

Encl: As above.

Sub: Specification for litter bins and waste storage to address issues of spillage and littering in cities

Dear State Mission Directors,

Swachh Bharat Mission (Urban) places strong focus on clean public areas, which is also a critical factor towards creating the citizen perception of a city's cleanliness levels. It has been observed that inadequate size of litter bins/waste storage bins placed in public places leads to their overflowing causing littering in public, which not only creates a nuisance for citizens but also leads to menace by animals.

2. ULBs may be directed that litter bins and waste storage bins placed across the city should be of the size which can accommodate waste disposed in it for an entire day along with regular schedules for emptying/cleaning of litter bins and waste storage by ULBs or contracted agencies.

3. On this issue, reference is drawn to the protocol for Star Rating of Garbage Free Cities, issued by the Ministry of Housing and Urban Affairs, which provides specifications for litter bins and waste storage bins, provided below for your reference.

- i. **Litter Bins:** Litter bins ranging in capacity 60-100 litre twin bins placed along roadside to cater to the needs of the public for throwing garbage along roadside including commercial, public, non-commercial and residential areas.
- ii. **Waste Storage:** Waste storage bins ranging in capacity of 1.1 – 4.5 cubic meters placed at strategic locations along roads/in public/commercial/residential areas to receive waste collected from houses/commercial.

I look forward to your cooperation in making this program a success.

With regards,

Yours sincerely,

(V K Jindal)

To,

State Mission Director, SBM (U), All States/ UTs
